

Hidden Potential

TWRP

Lift it up and put it down
Run real fast, jump off the ground
Work it hard because you deserve nothing but the best
(The best!)

Nine to five, then overtime
Weekend comes, it's your time to shine
Come so far and now you're gonna put it all on the line

Unlock your hidden potential
(Unlock it!)

You can do anything
Unleash the beast that lies within
(Unleash it!)

Unlock your hidden potential
(Unlock it!)

Trust in yourself and you will set the bar
You will set the bar, reach the stars!

Underdog, you'll show 'em all
Overcome against all odds
No holds barred because you know it doesn't end at the finish line
(No, no)

Whistle blows, your training kicks in
Blood runs high and you're ready to win
Don't stop now, you can almost taste sweet victory!

Unlock your hidden potential
(Unlock it!)

You can do anything
Ignite the fire deep inside
(Ignite it!)

Unlock your hidden potential
(Unlock it!)

Believe in your strength and you can reach the stars!
And you will go far
Set the bar
Reach the stars

Unlock it!
Unleash it!
Ignite it!
Unlock your hidden potential!

Unlock your hidden potential
(You can do, you can do anything now)

Unleash the beast that lies within
(Come on, babe, you can do it now)

Unlock your hidden potential, yeah
You can do, you can do, you can do anything!
