

Need Each Other

TWRP

Me and you
Plus you and me
It equals one, baby
There's nothing more
I ever need
Can't get enough, lady
Oh my lord
'Cause every time I try to say goodbye
Your body tells me hello (Hello)
And every single time I lose my cool
You keep me on the level, level, yeah

In this life
There's nothing promised
To us nowadays
So much pressure
I can't take it on my own, whoa

Now more than ever (Now more than ever)
We're gonna need each other (We're gonna need each other)
All of this passion
All of this pressure
We're gonna need each other
Pleasure
Can't forget about it, can't forget about it, can't forget about it
Now more than ever (Now more than ever)
We're gonna need each other

You may just be a speck on a rock floating through outer space
But when I see you smile, I see my universe across your face
Every single life is precious no matter who you are
And when you're shining, oh, you shine, you do, you're brighter than the stars

Everyone, we got a song that needs to be sung
And when we come together, the world will sing as one
And right now's our time

Now more than ever (Now more than ever baby, yeah)
We're gonna need each other
Ooh (Oh)
To feel true pleasure (So special, yeah)
We're gonna need each other
Yeah, yeah, yeah
Now more than ever (Now more than ever, baby)
We're gonna need each other

You're the only one
You're the only one
You're the only one
Only one for me
You're the only one
You're the only one
You're the only, only one for me, baby
You're the only one
You're the only one
You're the only, only one for me, baby

Now more than ever (Now more than ever, baby)
We're gonna need each other (Need each other)
With all of this pressure (So much pressure)
We're gonna need each other
Now more than ever (Now more than ever)
We're gonna need each other
More than ever

Today we need each other more (Yeah) than ever, yeah

Tell ya mama that you love her (I love you)
Tell ya friends that you love them (I love you)
'Cause we need each other now more than ever (More than ever, yeah, girl)
Tell ya daddy that you love him (I love you)
Tell a stranger that you love them (I love you)
'Cause we need each other now more than ever (More than ever, yeah, girl)
Doctor Sung, oh, I love you (Doctor Sung)
Lord Phobos, oh, I love you (Oh Lord Phobos, yeah)
And we need each other now more than ever (More than ever, ever, yeah, girl)
Havve Hogan, oh, I love you (Yes, I love you)
Commander Meouch, oh, I love you (Oh, Meouch, I love you)
And we need each other now more than ever
