

# Only The Best

TWRP

She's wise and she's kind  
She's tough but she knows how to unwind  
And all the lessons of livin' and the gifts that she's givin' are only the best

I'm gonna tell you what my mama taught  
A thing that she called some food for thought  
She's always wanted what's best for me  
And if she knew you, I know she would want what's best for you too

Through thick and thin, through stormy weather  
Together, we are stronger  
So lend a hand and we'll make it through  
Sometimes we win and sometimes we lose  
But look at how far we've come  
And you'll see there's nothing we can't do

Empathy and understanding  
Everything she taught me is only the best

Another lesson that my mama taught  
The best things in life cannot be bought  
She's always wanted what's best for me  
And if she knew you, I know she would want what's best for you too

Through thick and thin, through stormy weather  
Together, we are stronger  
So lend a hand and we'll make it through  
Sometimes we win and sometimes we lose  
But give it your all today  
And tomorrow good things will come your way  
Good things, good things will come your way

Only the best  
Only the best  
Only the best  
Only the best

Through thick and thin, through stormy weather  
Together, we are stronger  
With hand in hand, we'll be better soon  
And like my mother, and like my father too  
I will always try to make the world a better place for me and you  
And everyone out there too  
I will always try to do  
Only the best
