

# Starlight Brigade

TWRP

When I look up at the sky  
What meets my eyes?  
Can I just stand by  
While the world dies? (While the world dies?)  
Starship idling nearby  
Is it my time?  
I crawl inside and turn the cockpit clockwise  
T'ward the sunrise

I hear a voice in the back of my head  
Screaming "This is suicide! Did you hear what I said?"  
But then it fades into nothing  
With the rest of the light and sound  
I'm on my way out!

Lift off!  
The firestorm ignites  
Last thoughts of a life by candlelight  
Inside this speeding satellite  
Halfway between the black and gray  
Is no place for a life to waste away  
I'll take the road with all the stakes

Today, so many moons away  
I safely say  
That my heart's true calling was never betrayed (Never betrayed)  
Arrays of enemies await  
But fears allay  
We stand as one  
A bond beyond the vast wave  
Until the last grave

The mission order's typed and lights up our screens  
Ignition flights  
A thousand minds move simultaneously  
Into the night a fleet of firelight jet engines scream  
Turn the key  
This is my destiny!

Last flight  
I'd gladly give my life  
For one night as a justice acolyte  
Light shines only for the blind  
Escape the endless dream of space  
Black seas that I can't navigate  
Locate the great Starlight Brigade

We have come so far (So, so far)  
Beyond the most distant star (Woah, yeah)  
Starlight within will guide (It will guide) (Woah, yeah)  
Us to the other side (Woah, yeah)  
(Whoa, yeah)

Lift off!  
The firestorm ignites  
Last thoughts of a life by candlelight  
Inside this speeding satellite (Whoa, yeah)

Halfway between the black and gray  
Is no place for a life to waste away  
I'll take the road with all the stakes (Starlight Brigade)

Black knights and dark side battle cries  
All die once they're in my line of sight  
This fight is all I know that's right (Whoa, yeah)  
No fate but that of which we make  
Noble as the oath we undertake  
We are the great Starlight Brigade!  
Starlight Brigade!
