We are standing on the plunging earth

Our empty spaces open

(Our empty spaces open)

We've gathered round

From different times, different places

And now we're sprinting towards

A tomorrow that no one knows

(We don't stop) Doing this for what we love

(We don't stop) Forget about giving up and keep running

(We don't stop) Our passion burning at equal temperatures

(We don't stop) We don't know how to stop, yeah

(We can do it all day)

(We don't stop) I was all alone

(We don't stop) Now I'm loving the word "together"

(We don't stop) I am by your side

(We don't stop) We run together

Hey, hey
Muster all my spirit and pass it over
What do you feel when you run with me?
Tell me when this song's all over
Hey, hey
When our hands are brought together
Out of tens of thousands of feelings I've got
I'll tell you how glad I am to have met you

Our alternate names, vision
Our future that'll burn brighter than the sun
Nothing's meaningful all alone
Just look back and I'll be there
A dream that we're sure to reach
At the same time, in the same place
I want to cry out our dream
From the the world's peak

(We don't stop) Even when we don't know the way
(We don't stop) We'll be each other's compass
(We don't stop) Even when we are out of breath
(We don't stop) We don't know how to stop, yeah
(We can do it all day)
(We don't stop) I was all alone
(We don't stop) Now I'm loving the word "together"
(We don't stop) I am by your side
(We don't stop) We run together

Hey, hey
Muster all my spirit and pass it over
What do you feel when you run with me?
Tell me when this song's all over
Hey, hey
When our hands are brought together
Out of tens of thousands of feelings I've got
I'll tell you how glad I am to have met you

When our dream comes true (Dream comes)
You and I become one (We are)
I believe it there's no doubt
Like it's all set in stone
We may lag a little behind (Hey)
I'll come with you (Yeah, yeah)
We may not know what the future holds (Hey)
I am not afraid (Yeah, yeah)
Until we reach the day we've been dreaming of
I'll never let you down
Run until we reach the very end

Hey, hey
Pass on all the complex worries
Lean on me when you're knocked down
We will become one
Stay with me until the end of this road
Hey, hey
When our breaths are brought together
Different worlds unite as one
Being together is truly
Fate, much more than coincidence

(We don't stop) Oh-woah, oh
(We don't stop) Ooh-woah, ooh-woah

(We don't stop) I'll tell you
How glad I am to have met you
