

Only In Miami

TX2

Tan skin white shirt with the blonde hair
Dancin', nice girl, but she don't care
Damn thin might flirt till her man stare
Dancin', but I, but I don't care
The sun is making love
Till our skin, it turns to dust
Brother best believe I'm tapping in
Cause I'm clapping skin
Ask your boyfriend after him
It's a sad event, wish you could pass a friend
It's all love on the South Beach (South Beach)
Can we sit down please hold
Let her put it and I like your show
And if she's a mom then Stacy's gotta go
Sex on the beach
Breast pressed to me
Yeah, sex and treats in a Princeton tee
With my ex and she
You can guess to me cause next to me
Sign my name and say

Ay, baby, only in Miami, ay
You ain't gotta ever worry about a thing
Baby, only in Miami
You can put your trust in me
Baby, only in Miami
You can die with me
Spend some time with me
Walk around South Beach
Spend a dime with me, aye
Everybody stop and stare cause they know I got a dime with me, ay

All these summer clothes
I don't wanna know
Cause I'm filling her tank up, yeah
I come and go
Sex in the sand don't sound like a plan
Crabs in the land
Imma grab her by the hand
I'm a massive ass not as fast as max
Passing fast, practice task
I'm back
Racking the balls and I'm ready to break
Calling her name, I've polished my game
Moving her waist, groovin' in place
I'm losing my faith but stay true to my game
Feeling every step from the left to the right
Peeling her dress off by the end of the night
Let the killer speak for me
Reveal the freak
Move my feet for me
I'm in deep but I breathe in the city when I'm sleeping

Ay, baby, only in Miami, ay
You ain't gotta ever worry about a thing
Baby, only in Miami
You can put your trust in me

Baby, only in Miami
You can die with me
Spend some time with me
Walk around South Beach
Spend a dime with me, aye
Everybody stop and stare cause they know I got a dime with me, ay

She want me over and she want me over
Eat her sober and told her I can bend her and fold her
This is love by the ocean
All the motions and emotions
Connections growing
Skyscrapers light up the night
Try to take her and end in a fight
As our bodies intertwine
We assimilate minds
It's really simple
She's mine

Ay, baby, only in Miami, ay
You ain't gotta ever worry about a thing
Baby, only in Miami
You can put your trust in me
Baby, only in Miami
You can die with me
Spend some time with me
Walk around South Beach
Spend a dime with me, aye
Everybody stop and stare cause they know I got a dime with me, ay
