

Violent Nature

TX2

Hi my name is Evan I'm a sick bisexual basket case
Yeah I was sent to set the world on fire and piss on all your graves
I tried to hang myself with my dads belt but all it did was swing me to fame
I'm no role model so who the fuck let their kids listen to me?

This is not a problem you can fix
The therapy didn't do shit

My whole life I wish I'd never been born
I buried bodies under the floor
I'm sick of being
Silenced when I try to speak out
Violence is all we agree on now

Yeah I'm problematic
You could call me a problem addict
Give a mentally ill man a mic
And expect him not to be wrapping

The chord around his brittle neck
Just wait to see what happens next
You'll see me on the nightly news
Maybe then my label will check

In to see how I'm doing
Once they see numbers start moving
I'm glorifying self harm?
Nah I'm really just proving

I'm on a path to self destruction
My holes 5 feet deep
Let's count all together kids
One more now, follow me !

My whole life I wish I'd never been born
I buried bodies under the floor
I'm sick of being
Silenced when I try to speak out
Violence is all we agree on now

I'm so sick and fucking tired of feeling this way
I'm so sick and fucking tired of feeling this way
I'm so sick and fucking tired of feeling this way
I'm so sick and fucking tired of feeling this way
I'm so sick and fucking tired of feeling this way
I'm so sick and fucking tired of feeling this way
I'm so sick and fucking tired of feeling this way
I'm so sick and fucking tired of feeling this way

(Oh give me a break)
(I'm so sick and fucking tired)

My whole life I wish I'd never been born
I buried bodies under the floor
I'm sick of being
Silenced when I try to speak out
Violence is all we agree on now
