I'm yours, you were mine secrets of the world  
That eternal promise was like magic  
Our scintilla bloomed underneath the starlight  
Now see them burn in fire  
Turned into ruins, our memories into ashes

Together together  
We forever forever, you know  
Our promised something something  
You turn your back when the fire is burning

Crumbled sand castle, who's a liar  
Dancing fire at the end of the world  
Can't you hear it? My voice searching for you  
Once again I'm left alone  
"Save me"

Can't you see me?  
Like on that magical day, say "Believe me"  
My heart incinerated, come and feel me feel me  
Oh can't you see me?  
My friends don't understand me, no

Can't you see me?  
Friends don't understand me understand me anymore  
Friends don't understand me anymore more  
Can't you see me?  
Friends don't understand me understand me anymore  
Friends don't understand me understand me anymore

With resentment, my heart is heavy  
Cuz you don't understand me  
To make my resentment stop, please

Take my hand, once again

Together together  
We forever forever, you know  
Gone in a dream something something  
Abandoned island, that forgotten melody

Crumbled sand castle, who's a liar  
Dancing fire at the end of the world  
Can't you hear it? My voice searching for you  
Once again I'm left alone  
"Save me"

Can't you see me?  
Like on that magical day, say "Believe me"  
My heart incinerated, come and feel me feel me  
Oh can't you see me?

Bad bad hope it's just a painful dream  
Sad sad return me to your side again

Can't you see me?  
Like on that magical day, say "Believe me"  
My heart incinerated, come and feel me feel me
