

Devil By The Window

TXT (Tomorrow X Together)

Lie lie lie lie down
Go rest your eyes
Just fall asleep
Sweet dreams
You can't get off the ride

A wolf in sheep clothes
His disguise
In the na na na night
You'll be hiding inside

Uh, whatcha doing?
You got some time today?
Uh, what a nuisance
Come, come, come out to play

High, so high, the crimson sky
It's way too sweet to turn down
I scream and shout but no one's 'round
There's no way to escape it

I met the devil by the window
Traded my life
Temptation touched my tongue
Spread the wings of desire

He's whispering
"Give up, don't you put up a fight"
Said the devil by the window
"Dream on, dream on, good night!"

Said the devil by the window
"Dream on, dream on, good night!"

Waste, waste away
In the gutter with me
No, I can't tell what is fake in my reality

I see the waves, see the waves
Wash over me
Oh stay, you can stay
When you're tempted to leave

Uh, whatcha doing?
You got some time today?
Uh, what a nuisance
Come, come, come out to play

High, so high, the crimson sky
It's way too sweet to turn down
I scream and shout but no one's 'round
There's no way to escape it

I met the devil by the window
Traded my life
Temptation touched my tongue
Spread the wings of desire

He's whispering
"Give up, don't you put up a fight"
Said the devil by the window
"Dream on, dream on, good night!"

Said the devil by the window
"Dream on, dream on, good night!"

Devil, de-devil, devil
Devil, de-devil (Oh I met the)
Devil, de-devil, devil
Come here, come here, good night

High
I feel my body drifting into the sky
I won't come down, come down, come down

I'll fly
Weightless without a worry into the night
He said, "Dream on, dream on, dream on"
