

Magic

TXT (Tomorrow X Together)

Remember how I used to be so
Stuck in one place so cold
Feeling like my heart just froze
Nowhere to go
With no one, nobody

Suddenly you came through
Making me make a move
Nobody got it like you
I can't look away
I can't

Cause baby you're a real one real one
Teaching me to feel something so strong
We could reach out and grab it

Oh it's just like magic
Feeling your touch
Oh it's a rush
No one else has it
Oh just like magic

Oh it's just like magic
Holding me tight
Giving me life

Oh it's magic
Oh it's magic
(Oh it's just like magic)

Oh it's magic, oh it's magic
(Just like magic)
Oh it's magic
Magic

Used to be so afraid
Fraid of all the games we played
Waited around all day
Nowhere to go
With no one, nobody

Hoping someone would save me
Till you called out my name
Something in me just changed
Got me awake
Got me

Baby you're a real one real one
Teaching me to feel something so strong
We could reach out and grab it

Oh it's just like magic
Feeling your touch
Oh it's a rush
No one else has it
Oh just like magic

Oh it's just like magic
Holding me tight
Giving me life

Oh it's magic
Oh it's magic
(Oh it's just like magic)

(Everybody clap your hands
If you've got a broken heart just take a chance
I say everybody clap your hands
If you've got a broken heart just take a chance)

Oh it's just like magic
Feeling your touch
Oh it's a rush
No one else has it
Oh just like magic

Oh it's just like magic
Holding me tight
Giving me life

Oh it's magic
Oh it's magic
(Oh it's just like magic)

(Everybody clap your hands
If you've got a broken heart just take a chance
I say everybody clap your hands
If you've got a broken heart just take a chance)
