

Airborne

Ty Brasel

Back in the ring for another round
I'ma go hard til it's said and done
I was down bad but I'm better now
I gave my heart til it bled out
Farewell to the past then I sped out
Hello to the future we here now
Foot on the gas put the pedal down
Watch we gone shift up the paradigm
Yeah
Playing Heaven sound
Bringing Heaven down
My head in the clouds
And I'm airborne
You can't pull me down
I can't fail now
My head in the clouds
And I'm airborne

My heart, my blood, my flesh
My spirit, my soul, my essence
My life, my mind, my message
Take my life as a testament
I got a story to tell and that's the token
I got a grind overdrive put it in motion
I got a world to change
They looking hopeless
I'm going all the way until it's over
Captivated all my blessings activated
Acclimated all my demons agitated
In the night, I broke outside of the matrix
To the sky, thank you God it's fascinating
All my life, knew my destiny was greatness
But they don't know
What it took just to fight
I put everything on the line
This is more than lyrics, this is my life
Yeah yeah
I'm starting with the man
In the reflection
Cut me open take a look
That's a c-section
I'm just tryna be the
Best version of me restomg
Fighting to keep progressing
I was down bad bounce back better
Back again this time it's forever
Yea this time it's forever

Back in the ring for another round
I'ma go hard til it's said and done
I was down bad but I'm better now
I gave my heart til it bled out
Farewell to the past then I sped out
Hello to the future we here now
Foot on the gas put the pedal down
Watch we gone shift up the paradigm
Yeah

Playing Heaven sound
Bringing Heaven down
My head in the clouds
And I'm airborne
You can't pull me down
I can't fail now
My head in the clouds
And I'm airborne

Playing Heaven sound
Bringing Heaven down
My head in the clouds
And I'm airborne
You can't pull me down
I can't fail now
My head in the clouds
And I'm airborne

You can't pull me down
I can't fail now
My head in the clouds
And I'm airborne
