

All I Got

Ty Brasel

Don't get lost in the limelight
Don't wish different in hindsight
Keep your head in the game
Even when you on the sidelines
It's always a silver lining when it rains
Been through a lot in my lifetime
Gotta get up and roll with the waves
Word to the wise
Gazing under the night sky
Looking over the high rise
It's been a wild life
I'm on a mission it feel like the right time

Long nights, long flights in the starlight
In my Breitling, rocking off white
It's a cold world but it's alright
We gon' make it through the hard times
Oh oh, oh oh oh, oh oh

Watch the stock, profit talk
I'm with God, Mazel tov
Hate love or not
I gave the game all I got
Oh oh, I gave the game all I got
All I got all I got
It don't stop till we drop

I put my life in these raps
That's the blessings
I put in life in God hands
That's progression
If you ain't walked in my shoes
Where I ventured
You prolly wouldn't understand the pressure
I got blood clots and knots
Way too many nights of stressing
But I got a call with a message
I.D. said, that it's destiny
Anything possible gotta believe
I been beaten but ain't tasted defeat
Grinding like Deion my heart like Celine
I'm on a mission plotting on the dream

Long nights long flights, in the starlight
In my Breitling rocking off white
It's a cold world but it's alright
We gon' make it through the hard times
Oh oh, oh oh oh, oh oh

Watch the stock, profit talk
I'm with God, Mazel tov
Hate love or not
I gave the game all I got
I gave the game all I got
All I got, all I got
It don't stop till we drop
Oh oh, oh oh oh, oh oh
