

# Call Me Up

Ty Brasel

Call me up  
Baby call me up, oh oh  
I need your love  
Really need your love right now  
It's euphoria  
It's heavenly I need more of ya  
Oh ohh  
I wanna go can you take me up

It's a war going on outside  
It's a war inside my mind  
It's war all of the time  
Just take my hand hold tight  
We'll make it through the fight  
Everything gon' be alright yeah  
Too many nights spent all alone  
I waited for you in the cold  
Waiting for you by the phone  
Tell me what you want say just how feel  
All is fair in love you can keep it real  
We all been through pain  
We all tryna heal  
If you ever need someone to listen to you

Call me up  
Baby call me up, oh oh  
I need your love  
Really need your love right now  
It's euphoria  
It's heavenly I need more of ya  
Oh ohh  
I wanna go can you take me up

Call me up  
Baby call me up, oh oh  
I need your love  
Really need your love right now  
It's euphoria  
It's heavenly I need more of ya  
Oh ohh  
I wanna go can you take me up
