

# First Love

Ty Brasel

God made things so wonderful  
Don't know why I tried to leave  
Every time I run from you  
You keep coming back for me  
Cause you got sweeter, sweeter love  
Sweeter sweeter

Heavens what I'm searching for  
Satan here at war with me  
But God's still fighting for my soul  
You keep calling out for me  
Cause you got sweeter, sweeter love  
Sweeter sweeter  
Sweeter sweeter, sweeter sweeter love  
Sweeter sweeter, sweeter sweeter love  
Sweeter sweeter, sweeter sweeter love  
Oh, said you got sweeter love

They say don't leave the one you love  
For a temporary lust well  
I think your love is a drug  
Cause I keep coming back  
Every time I try to run from, you, yeah  
And I know won't find satisfaction  
In the passing pleasures  
For some reason I keep searching for hell  
When I found heaven  
I just want to dwell in your presence  
And that's forever, yeah  
I know the the promised land awaits  
But I keep wondering in the wilderness  
Like the children of Israel  
What's my fate God  
I just want to hit my knees and pray God  
Cause I don't want to live like this  
I'm struggling to kill my flesh  
I know my spirit is willing but God  
I just really need your strength  
I know you calling me home  
Where real life is, yeah  
Cause Moses seen the golden calf  
And cried out for Israel to come back  
To her first love, to her first love yea  
And Gideon tore down the Baal statue  
And cried out for Israel to come back to  
Her first love, yeah  
Cause you got sweeter love, yeah

God made things so wonderful  
Don't know why I tried to leave  
Every time I run from you  
You keep coming back for me  
Cause you got sweeter, sweeter love  
Sweeter sweeter

Heavens what I'm searching for  
Satan here at war with me

But God's still fighting for my soul  
You keep calling out for me  
Cause you got sweeter, sweeter love  
Sweeter sweeter  
Sweeter sweeter, sweeter sweeter love  
Sweeter sweeter, sweeter sweeter love  
Sweeter sweeter, sweeter sweeter love  
Oh, said you got sweeter love
