

# LOST

Ty Brasel

Staring at my pain through the window  
Fighting with my mind, and my mental  
I been by myself, in the deep end  
Spent the whole night, fighting demons  
Late in the night, when they dreaming  
I been up late, I ain't sleeping  
I went took a ride, for the evening  
I'm just tryna make it, to the weekend  
Through that storm through the fire  
Through the pain through the wire  
When they lose hope and faith  
I still sing with the choir  
When I'm feeling down then I need you round  
When I'm down and out I need freedom sound  
Wash over me with the water  
Rain down

So many times that I falter  
I'ma keep get back up 'til prosper  
I'ma fight back and fight 'til I conquer  
And instill the legacy with honor  
Wash over me with the water  
Rain down  
Watch over me keep me stronger  
Holy Father  
Out in the wild and I wander  
I just ran through the lightning and thunder  
If I don't make it back to the alter  
Could you wash over me with the water  
Wash over me with the water  
Rain down  
Watch over me keep me stronger  
Holy Father

Wash over me with the water  
Rain down  
Watch over me keep me stronger  
Holy Father
