

Most High 3

Ty Brasel

I can hear angels sing, seen the devil at the crossroads
I had visions of Elohim, and I had visions of crashin' and burn
in'

Take Your word and wash over me

Yeah, yeah, take Your word and wash over me

I listen when the Most High speaks

(Take Your word and wash over me, I listen when the Most High s
peaks)

Yeah, and You paid the price, worked from the Word to the wise
Heaven came down, I was out like a light

I was sippin' on Sprite with the purple inside

Livin' life so wrong, do it 'til it feels right

Livin' a lie, puttin' my life on the line

All the ones we lost, I pray you fly

Lookin' up at the sky from the highrise

I can see the world from a bird's eye

Reminisce, we made it through the worst times

Another day livin' on borrowed time

Woke up, first thing, had to thank God

Yeah, this my premonition, I know the devil really tryna take m
e out

I can hear angels sing, seen the devil at the crossroads

I had visions of Elohim, and I had visions of crashin' and burn
in'

Take Your word and wash over me

Yeah, yeah, take Your word and wash over me

I listen when the Most High speaks

Mm-hm, mm-hm, don't know if Peter was Pope, but I know that a p
riest is more potent when he quote the Most High

The Father had parted the sea and then sent a whole legion to f
all in the sea

They said an apple ain't far from the tree

I think God see the Garden of Eden in low tide

Sin, it got Adam and Eve, they keep on catchin' more casual tee
s

I give my past to the King, salvation, He passed me the key, I
know that I won't die

I know an Arabic brother in God who know that Yeshua has paid e
very cost

He gave his praise to Allah, every language will fall and worsh
