Most High

Ty Brasel

I gave my life to the most high
You now tuned in with the most dope
I was so low but he made my soul fly
Can't block my shine I'm a gold soul
I gave my life to the most high
Surrounded by angels on both sides
Ain't no going back now boy it's go time
Yeah, yeah, it's showtime

I remember just sitting there faded
Back to back to back fire it and face it
Cause my problems I didn't wanna face it
Drown my sorrows pop pills til' I'm painless
Just probably a product of trauma
I numb it away but I couldn't escape it
And I felt like my life worthless
I heard lies in my head say to take it
What would it profit a person to lose they mind
I been seeking life from the lifeline
Dedicated my life for a lifetime
Put my life in these lines and write in stone
I was lifeless when the light shine
I ain't lying I put that on my life
I was dying that was just my lifestyle
It's a wild life

I gave my life to the most high
You now tuned in with the most dope
I was so low but he made my soul fly
Can't block my shine I'm a gold soul
I gave my life to the most high
Surrounded by angels on both sides
Ain't no going back now boy it's go time
Yeah, yeah, it's showtime

I gave my life to the most high
The most high
