

# Never Too Far

Ty Brasel

Sometimes I feel like I'm just not enough  
Other times I think I'm doing too much  
Hiding my feelings, yeah, I shut them off  
I just wanna be alone  
Start over tomorrow

Though I feel my heart ache  
At the moment  
I know it's ok  
To feel a little broken

Cause I'm never too far, too far  
From your your your arms  
Keeping me safe from harm  
A love from the start  
You do whatever it takes  
Yeah, you always find a way  
Cause I'm never too far, too far  
From your your your arms

Even on the worst day  
You making me feel like it's my birthday  
With you I won the medal, I'm in first place  
Your love's another level and I'm in space

Yeah, you changing my views  
I got nothing to prove  
When you love me like you do  
Love me like you do

Cause I'm never too far, too far  
From your your your arms  
Keeping me safe from harm  
A love from the start  
You do whatever it takes  
Yeah, you always find a way  
Cause I'm never too far, too far  
From your your your arms

And I'm never too far from you, yeah  
Anywhere know I can call on you, yeah  
And your love never gave up on me  
Even when I ran off on you  
When I don't believe in myself  
When they saw the worst in me, yeah  
Your love always waited on me  
And reminds me again who I am  
Can't stay down got too much to lose  
Push and pull but I always pull through  
Can't nobody love me like you do, no

All through my heart ache  
At the moment  
I know it's ok  
To feel a little broken

Cause I'm never too far, too far

From your your your arms  
Keeping me safe from harm  
A love from the start  
You do whatever it takes  
Yeah, you always find a way  
Cause I'm never too far, too far  
From your your your arms
