

# Night Dreaming

Ty Brasel

Yeah

Lately, I've been spending time by myself, Riding by myself  
Staying out the way, Quiet is kept  
Drive through the city, me myself & I  
Going in circles so I'm dizzy  
Head still spinning  
Looking out the sunroof, Earth to the stars  
If I had a spacesuit, I would travel far  
If I left this planet, I'd be traveling at the speed of light  
If I made it to the constellations  
I'd be hypnotized  
Fascinated with the high  
Thoughts of a sober mind  
Lost in a daydream, back to reality  
Back to this routine, Oh what a tragedy

Daydreaming, night dreaming

Yeah  
Lost in my thoughts, riding in the fast lane speeding, lane speeding  
2 am, 3 am, 4 in the evening  
Lost in my, lost in my dreaming  
Yeah, yeah  
Daydreaming, night dreaming  
Lost in my thoughts, riding in the fast lane Speeding, lane speeding

Sometimes I want to run away  
And forget all my problems  
Go stress-free, no pressure  
Don't press me, don't bother  
Not deal with no (fake people)  
They upset my stomach  
Get away from (this industry)  
Vacate from the drama, well  
I'm on the road at 2 am  
I just looked up it's a full moon  
Stuck in a trance, I want to ascend  
I want to escape, where we going to?

Outermost going traveling at the  
Speed of Light  
Outer, Outermost going traveling at the Speed of light  
Can't go back I'm fascinated with the high  
Can't, Can't go back fascinated with the High, yeah

Daydreaming, night dreaming  
Lost in my thoughts, riding in the fast lane Speeding, lane speeding  
2 am, 3 am, 4 in the evening  
Lost in my, lost in my dreaming  
Yeah, yeah  
Daydreaming, night dreaming  
Lost in my thoughts, riding in the fast lane Speeding, lane speeding  
Daydreaming, night dreaming yeah  
Lost in my thoughts, riding in the  
Fast lane speeding yeah  
Lost in my...
