

# No Escaping

Ty Brasel

Yeah, long nights I can feel the cold, cold world  
Got my heart froze, from my soul need that anecdote  
Oh no, no, no don't leave me alone  
Long nights I can feel the cold, cold world  
Got my heart froze, from my soul need that anecdote  
Oh no, no, don't leave me alone

Look outside it's raining  
Seasons change, things changing  
Numb to the pain I'm jaded  
Can't escape it no escaping, yeah

Most nights, Long nights  
It's a hard life  
Low light, no light  
Where the sun shine  
Rain fall, drowning me  
Down the mudslide  
On another night, I lost my homie to a gun fight  
Another night, I lost my baby when the love die  
Another night, I lost myself asking "Who am I?"  
Another night, I guess it's just another night (Yeah, yeah)

Yeah, long nights I can feel the cold (Cold), cold world  
Got my heart froze (Froze), from my soul need that antidote  
Oh no, no, no don't leave me alone  
Yeah, yeah, yeah  
Long nights I can feel the cold, cold world  
Yeah, yeah, yeah, yeah  
Got my heart froze, from my soul need that anecdote  
Oh no, no, don't leave me alone

Look outside it's raining  
Seasons change things changing  
Numb to the pain I'm jaded  
Can't escape it no escaping

No strength, broken down  
It's a hard life (Yeah)  
Lost in sin, lost my way  
Where the sunshine (Yeah)  
Stuck in place, can't escape  
Out the mudslide  
On another night, nightmares hold me tight  
Another night, paranoid I'll lose my life  
Another night, locked in prison in my mind  
Another night, I guess it's just another night  
Yeah

Long nights I can feel the cold (Cold), cold world  
Got my heart froze (Froze), from my soul need that antidote  
Yeah  
Oh no, no, no don't leave me alone  
Yeah, yeah, yeah  
Long nights I can feel the cold, cold world  
Yeah, yeah, yeah  
Got my heart froze, from my soul need that antidote

Oh no, no (God), don't leave me alone
