

Paid For It

Ty Brasel

I already paid for it
Got your life in my hands
No my love never ends for you
When it's too hard to stand
Know that you can depend on me
Lift your head to the sky
Cause my love never ends for you
I'll be right by your side

World going crazy, it's madness
These circumstances that we facing
It's tragic, yeah
Sometimes I feel like I can't make it
It's dangerous
Feel like I'm on the edge of collapsing, uh huh
When the storms raging
And the walls cave in
And the fire blazing
And the seasons changing
Yeah, when it's hard to sleep
Cannot find peace, cannot find peace
I look to You, every single time
I know You saved me yeah
So stay close to me we gone make it safely
Cause You won't let me down
And that's amazing yeah

I already paid for it (ooh I already paid)
Got your life in my hands
No my love never ends for you
(Never ends no my love never ends)
When it's too hard to stand
Know that you can depend on me
Lift your head to the sky
Cause my love never ends for you
I'll be right by your side

Trapped inside my mind
And I just don't know what the way is
Painting all these pictures in my head
I know it's dangerous
Looking in the mirror
All I'm seeing is a stranger
I wanna run away from here

Can the sunshine be on time
On the frontline for me
Look outside it's so bright
But I'm so blind to see (oh oh)
Feel like I lost my way
Mind telling me I need to escape (oh yeah yeah)
But there when I feel all alone
That's when You pulling me close (yeah yeah yeah)
I know You won't let me go
I told my fear adios

I already paid for it

Got your life in my hands
No my love never ends for you
When it's too hard to stand
Know that you can depend on me
Lift your head to the sky
Cause my love never ends for you
I'll be right by your side
Know that you can depend on me
Lift your head to the sky
Cause my love never ends for you
I'll be right by your side
