

Play This Song (Vibes)

Ty Brasel

I just cooked up a key
This music moving in the streets, yeah
They know I got the dope for the low
Music that soothe your soul
Young T come through with the vibes, yeah
Come through with the vibes yeah yeah
Play this song
When you in the zone
When you need a boost
All the highs ands lows
Call me on, yes we got the juice
This that bounce though, monte Carlo, yeah
This that new furlow, blue mink cold, whoa
All for you, yeah

They call me young T the antidote
I got the dope for the low
Music that sooth ya soul
Music that soothe ya soul
That's the m.o. found my tempo word to Krit
I can't make songs, if it ain't moving you
That's my higher calling
Vision got mileage on it
Dreams likes scenes I seen
The cement poured
Built the foundation from nothing
Like my grandma palms
These other rappers selling lies on the tape
That's st nick clause
I put my life on the track
Young Dale earnheart
I Pull up fitted in the rental
Like it's 12th grade prom
They Hit the studio with T
I'm cooking up 8 ball uh huh uh huh

I just cooked up a key
This music moving in the streets, yeah
They know I got the dope for the low
Music that soothe your soul
Young T come through with the vibes, yeah
Come through with the vibes yeah yeah
Play this song
When you in the zone
When you need a boost
All the highs ands lows
Call me on, yes we got the juice
This that bounce though, monte Carlo, yeah
This that new furlow, blue mink cold, whoa
All for you, yeah

She said she gone get me ounces
She whip the stove
Control the line just like a bouncer
Stay on the west side of that mountain
Then watch me Pull up with the stick
And let it go before I drop it

Saw em trap by the day
Some time with the status
And All God my answer
In all white Ty Brasel
It's All bars no xanny
If she call no answer
Don't even ask me
My shoulder cold as Alaska
This that hold up
Bag a verse of that cola
Soda baking til it froze up
Beeper jumping like it's Kobe yeah yeah uh
Vein pop when I flex
Rain drop when I'm blessed yea
Sauce handle I'm the bone collector
Get right witchu brrrr

I just cooked up a key
This music moving in the streets, yeah
They know I got the dope for the low
Music that soothe your soul
Young T come through with the vibes, yeah
Come through with the vibes yeah yeah
Play this song
When you in the zone
When you need a boost
All the highs ands lows
Call me on, yes we got the juice
This that bounce though, monte Carlo, yeah
This that new furrow, blue mink cold, whoa
All for you, yeah
