

SET IT OFF

Ty Brasel

(I'ma set this thing off, yeah, aye
Turn me up
Yeah, yeah)

When I pull up, I'ma set this thing off
Set this thing off
I'ma set this thing off, yeah, whoa
For all of the days that pain cost
All of the loved ones we lost
All the long nights we fought, yeah
Whoa
All of them sacrifices paid off
Me and my fate in a face-off
I'ma set it off, I'ma take off, yeah
Whoa
Yeah
When I pull up, I'ma set this thing off, aye

I just pulled up in the brand new Yeezys
I rock the Ye with my Jesus pieces
Sitting in Sunday service, ultra beaming
Lil' heathen came a long way from dreaming
See what I seen, gotta see to believe it
Nightmares and ecstasy, I done seen it
Satan sayin' curses, speaking the evil
Angels watching over take me to Eden (Yeah)

With my head to the sky
Look around, see the stars align
All the times almost lost my life
Too alive that you can't kill my vibe
Made it through the storm and tribulation
Made a legend, history in the making
Pull up, I'm raging, made it out
Now it's off to the races

When I pull up, I'ma set this thing off
Set this thing off
I'ma set this thing off, yeah
Whoa
For all of the days that pain cost
All of the loved ones we lost
All the long nights we fought, yeah
Whoa
All of them sacrifices paid off
Me and my fate in a face-off
I'ma set it off, I'ma take off, yeah
Whoa
Yeah
When I pull up, I'ma set this thing off

Young Ty man back with the real rap
Not with the riffraff, not with the witchcraft
If you was wondering where I been at
I was chilling, kicking game at the kickback

They talking down, I don't feel that

You can find me where the real at
I'm on the go, moving real fast
Took off so quick caught whiplash

In the script with a sixth sense
Seconds from seeing death win
Second chances just sets in, yeah
I got a second wind

'Fore I die, I gotta make a impact
Owe it to God, I got a sick past
I feel like Ye when the whip crashed
Made it through the wire, now when I look back
Out of the dirt was crystals
I saw the light, it's blissful
I made it out of the pitfall
Now I gotta set this thing off

When I pull up, I'ma set this thing off
Set this thing off
I'ma set this thing off, yeah
Whoa
For all of the days that pain cost
All of the loved ones we lost
All the long nights we fought, yeah
Whoa
All of them sacrifices paid off
Me and my fate in a face-off
I'ma set it off, I'ma take off, yeah
Whoa
Yeah
When I pull up, I'ma set this thing off

When I pull up, I'ma set this thing off
Set this thing off
I'ma set this thing off (Whoa)
When I pull up, I'ma set this thing off
Set this thing off
I'ma set this thing off

I'ma set this thing off (Whoa)
When I pull up, I'ma set this thing off, yeah
