

# Shine

Ty Brasel

I feel alive, I just caught my vibe yeah  
In this life, it can take ya light yeah  
My oh my, through it all I survived  
Too many dark times  
So you know I gotta shine  
Gotta shine, through the night  
In these city lights yeah  
Up too high, I'ma take it high  
I feel alive yeah, I just caught my vibe

Vibe with me, come slide with me  
We on an mission  
Come and ride with me  
I just touch down in the sky  
I'm ascending, turn me up  
Turn it till they feel me  
Aye, aye  
They throw hate and judge  
Sound like Satan to us  
Told em in God we trust  
Yeah, yeah  
Double cross my cuts  
I need that thing deluxe  
I'm searching for a gold rush  
I can't never stay down  
When I'm lost  
Always knew how to find a way  
Out of sight out of sound  
Out of mind, first class on a private plane  
I feel so alive now, broke out the cage  
I broke through the clouds  
Let it marinade, remember the drought  
This Devils game, could've taken my life away

I feel alive, I just caught my vibe yeah  
In this life, it can take ya light yeah  
My oh my, through it all I survived  
Too many dark times  
So you know I gotta shine  
Gotta shine, through the night  
In these city lights yeah  
Up too high, I'ma take it high  
I feel alive yeah, I just caught my vibe

I'm with my jiggas  
Back in the basement like big tigga  
Big ticket, I'm big as a building  
They yelling out timber  
I tell no lies, cross my heart and dot my I's  
Don't wanna die, don't cross the way  
You won't survive, yeah, uh huh  
I hate the way that it was  
Got fly then I found my buzz  
They waited for me to give up  
You tryna dim my light  
Every year they show me love  
It look like you buying the hype

Come see what he doing for us  
It is what it is  
I stood on the hill and they saw I was lit  
This for the kids  
That's watching the wave  
I show em the biz  
I came out a cave  
I batted my eye and they robbing the cape  
It go head over rims  
I still gotta shine so my spirit'll lift

I feel alive, I just caught my vibe yeah  
In this life, it can take ya light yeah  
My oh my, through it all I survived  
Too many dark times  
So you know I gotta shine  
Gotta shine, through the night  
In these city lights yeah  
Up too high, I'ma take it high  
I feel alive yeah, I just caught my vibe
