

# Through The Fire

Ty Brasel

Take me high  
I've been low, yeah yeah  
Give me life  
It's so hard to cope, yeah  
When I'm lonely  
When I'm hurting, yeah  
Through the fire  
Through the furnace, yeah yeah  
Take me high  
I hate this feeling  
When my soul is my low  
I look to the hills, yeah  
When I'm lonely  
When I'm hurting, yeah  
I call on you  
Yeah, still

When I lose control  
It's so hard to cope, yeah, but  
This one thing I know  
Through the highs and lows, yeah not  
Never will you leave  
Never will you go, no, still  
Lord, if I'm honest  
I get paranoid feel like  
Every time I get a blessing I feel a curse coming  
Reload we know these roads dangerous  
Every time I think about the past I turn stomach  
Most times more than not  
It's hard to forgive myself, yeah  
Every time I have a nightmare it feels real  
Heart pacing, mind racing, anxiety  
Cold sweats late nights, stay by angels please Leo Caprio  
I'm lost in my dreams yeah  
Every time I fall in love  
It feels like the first Sunday so  
Every time I see my exes I write a verse on it  
I probably never release it  
But I release all my burdens on it  
When I get lonely I just press play  
And then max the volume, uh huh yeah

Take me high  
I've been low, yeah yeah  
Give me life  
It's so hard to cope, yeah  
When I'm lonely  
When I'm hurting, yeah  
Through the fire  
Through the furnace, yeah yeah  
Take me high  
I hate this feeling  
When my soul is my low  
I look to the hills, yeah  
When I'm lonely  
When I'm hurting, yeah  
I call on you

One thing for certain  
Yeah yeah

Oh yeah  
Through the ups and downs  
You gone hold me down, yeah  
When I'm lonely  
When I'm hurting yeah  
I call on you, still

Cold winter, I get so numb to the changes  
Solo mission, I get so numb to the loneliness, yeah  
Prolific, I'm numb to the sound of they praises  
Low centered, don't get lost in the Pandemonium, yeah yeah  
No, don't get lost in the Pandemonium  
Yeah yeah, whoa  
Don't get lost in the pandemonium
