

# Your Love

Ty Brasel

I'm doing the dash, we running it up  
For all the times I could've died  
Put my life in these raps  
Righting my wrongs  
I had to fight to survive  
And I can't relax, I'm on the go  
I got to get what's mine  
Would you lift me up  
My head to the sky

Your love is taking me high  
I just wanna be right here forever  
Look up see the stars align  
I just wanna stay right here forever, yeah  
I just wanna stay right here forever, yeah

I'd give it all up if I just had you  
Ain't no one else  
That could love me like you do  
And all these villains out here  
Tryna kill my mood  
But I'm on the moon  
You should see the view

And I'm back in my vibe with it  
Feeling 2 alive with it, and the vision vivid  
And the drive different, and the suit fitted  
An I got a feeling, we on the rise with it  
God willing  
I know you got me I ain't stressing  
Feel like I'm back in Memphis  
Riding through the city  
And I'm sliding with the realest  
Really just big stepping  
I know the best is awaiting in front of me  
Everything working together up under me  
If you down bad  
You can always bounce back  
I learned that from hustling  
Trusting the process I feel like Embiid be  
Feel like I'm dame  
Pull up deep for the 3 piece  
And I'm ready to fly  
Lift my head to the sky

Your love is taking me high  
I just wanna be right here forever  
Look up see the stars align  
I just wanna stay right here forever, yeah  
I just wanna stay right here forever, yeah
