

Love Jones

Ty Dolla \$ign

One bite cost a whole meal
High class rich girl appeal
Moving big bags had to learn them rich girl skills
Talking big shit
Popping all them big girl pills
She's a young thing
Popping got herself a few deals
On a billboard see it when you riding on your wheels
On sunset she just bought a place in the hills

Californication
Yeah I love what we continue making and I wanna get a little more
Need to get a little more
Californiacation
Yeah I love what we continue making and I wanna get a little more
Need to get a little more

Got you love jones, love jones right here
Girl you stay warm like all Damn year?
Californiacation

Tennis chain cost a whole wheel
Had to change my watch to match the whole feel
Moving too fast you ran traffic standing still
Popping big shit
Made another eight figure deal
On sunset she just bought a place in the hills
On a billboard see it when you riding with your clique Down Melrose
She just wanna play all day

Californiacation
Yeah I love what we continue making and I wanna get a little more
Need to get a little more
Californiacation
Yeah I love what we continue making and I wanna get a little more
Need to get a little more
