Ty Dolla \$ign

Ooh

Something takes hold now when we dancin'  
Bodies 'round us caught up in the wave  
Sometimes it's like playin' 'round with magic  
Let it take you, let it take you all the way

Come from on high, high  
Won't let me go vibe, vibe  
Start feelin' so right  
It's takin' control

That's when I get my motion  
That's when I get my motion  
Our bodies in the moment  
That's when I get my motion  
That's when I get my motion  
That's when I get my motion (Ooh)  
That's when I get my motion (Oh)  
Our bodies in the moment  
That's when I get my motion  
That's when I get my motion  
That's when I get my—

Startin' me up with a touch (Touch)  
Takin' over me and I can't get enough (Oh)  
Love that energy you bring, girl, who's your plug? (Plug)  
Give you what you need, let me be your teacher

Oh, I'm tryna take you high, high  
Now don't it feel so right, right?  
It's sendin' me left and right  
And just when you think I'm drownin' in the waves (Ooh)

That's when I get my motion (Aw, yeah)  
That's when I get my motion (You get it, baby)  
My body's in the moment (Oh, woo)  
That's when I get my motion (Hey, yeah)  
That's when I get my motion (Oh-oh)  
That's when I get my motion (Ooh, that's when I, baby)  
That's when I get my motion  
Our bodies in the moment (Don't leave me, don't leave me, girl)  
That's when I get my motion  
Yeah, that's when I get my motion  
That's when I get my motion, oh
