

## Side Effects

Ty Dolla \$ign

Yeah, you tried to warn me 'bout the side effects, side effects, you did

Yeah, you tried to warn me 'bout the side effects, side effects, you did

Put me with a head now, yeah

Put me in a headlock, yeah

Yeah, you tried to warn me 'bout the side effects, side effects, you did

Ain't nobody safe now, safe from the side effects, no (Side, side effects, nno)

Safe from the side effects, no

No preparing for how you do it

Couldn't get my mind right for how you lose it, oh no

My breath ain't been right since you took it

Yeah, my world's been upside down, it's almost like you pull it

You come around and I-I don't wanna eat

Yeah, You come around and I-I don't wanna sleep

You tried to warn me
