

SMILE BODY PRETTY FACE

Ty Dolla \$ign

I need to know
If you're for sure
I need to know

I was broke and slided into safety
You was there when nobody believed in me
Down bad, I didn't have a plan B, no plan B
But you stayed and treated me like family
Pull up, but you so passy with it, with it
Never fold, never switch, never cap, you did it
Even when I wanted to run the streets, you never gave up on me

We makin' the same mistakes, bae
We both takin' turns to say sorry
You love me, I love your feng shui
Say, "Stop it, you killin' me, papi"
I get lost when I'm in your face (I need to know)
I forget sometimes what to say
Your smile, your body, your pretty face
Let me fuck you, baby
Your smile (Your smile), your body, your pretty face
Let me fuck you, baby

You the type to make the whole room get jealous
Niggas don't belong in your presence
Big flex, you ain't even try hard
Black card, if we talkin' face card
You the wave, whole city know your name
They must be jealous of your fame
Believe me when I say that's mine
She don't even need a dollar sign
No-oh-oh, I love a bitch that got it out the mud
The only one to fuck me like a drug
Transparency, that's how I know it's love
I pick you up when you sad
I give you somethin' you never had
You know I ain't tryna go to sleep mad, oh-oh

We makin' the same mistakes, bae
We both takin' turns to say sorry
You love me, I love your feng shui
Say, "Stop it, you killin' me, papi"
I get lost when I'm in your face (I need to know)
I forget sometimes what to say
Your smile, your body, your pretty face
Let me fuck you, baby
Your smile (Your smile), your body, your pretty face (4-4Hunnid)
Let me fuck you, baby

One shot, two shots full
I'm drunk off Don Julio
Goddamn, girl, you fine, for sure
I'm tryna put my tongue in your bootyhole
Foolie, I know, shoulda met you sober
Excuse me and my aggressive composure
I told the homies "I'm on her"
That pussy mine, I'm the owner

I only act like this when I like her
Trick a lil' bit, I'm tryna bite her
Milli' on the ring if I wife her
Put them legs behind your head like I'm finna change that diaper
She know I don't hit women
She told "Hit it from the back", you think I wouldn't?
Lickin' all the spots he said he couldn't
Bareback in that cat even though I shouldn't

We makin' the same mistakes, bae (Ayy, ayy)
We both takin' turns to say sorry (Ayy, 4Hun')
You love me, I love your feng shui
Say, "Stop it, you killin' me, papi"
I get lost when I'm in your face (I need to know)
I forget sometimes what to say
Your smile, your body, your pretty face
Let me fuck you, baby
Your smile (Your smile), your body, your pretty face
Let me fuck you, baby
