

# Time

Ty Dolla \$ign

I remember the day when they put you away  
Just gave your life but that ain't no life  
So I'm living life for you, fucking all these bitches  
Sending you the pictures, each and every city, hesitation rise with this girl  
ls every night oh

Everywhere we go  
All we know is money, hoes and clothes  
Is the life we chose  
And loyalty is everything so

If they ask me why I do it I'mma tell em that  
I do it for my niggas, I do it for my niggas  
The ones that couldn't make it, everybody else fake  
Do it right, got a lot on your mind, watchin' time pass by  
Watchin' time pass by, watchin' time pass by oh yeh yeh

I remember the time, that I met your son  
I know he's on your mind, treat him like he's mine  
I'm just living my life, fuckin all these bitches  
Sending you the pictures, each and every city, wishing you was with me uhh

Everywhere we go  
All we know is money, hoes and clothes  
Is the life we chose  
Loyalty is everything

If they ask me why I do it I'mma tell em that  
I do it for my niggas, I do it for my niggas  
The ones that couldn't make it, everybody else fake  
Do it right, got a lot on your mind, watchin' time pass by  
Watchin' time pass by, watchin' time pass by oh yeh yeh

Moment of silence for my people who ain't here but so is  
To all my niggas who know what a real goal is  
To all my women who know exactly what rose is  
Far from my bitch but know exactly what a ho is  
Huh, I pray for em just return the blessings  
And remember the good things and how granny blesses  
And look past all the bad and how the devil test us  
And never let the evil wonder off are even stress us

Yeah my little brother is on the wrong path  
So as a man I can't judge, I can only ask  
We laugh moments and share times till they fade away  
For heaven sip my crowds can only ask for the having gates  
Mentally I'm scared so believe fall of the bull  
My dog got a hundred how the fuck he gonna be cool  
Oh no my goons sometimes I act the fool  
But pride never foolish so foolish when it's true

Between me and you sure I'm just like you  
So when I got caught I look just like you  
Regardless to it all I was holding down my crew  
But when the judge hit the gavel what should a real man do  
Looked just like you and eyes of beholders  
Facing all my faults running from the rollest

Bang about the past I had a world never shoulders  
Regrets and believes is so big like a bolder

Cutting down the colder, sitting on the block  
To the police rolled up and pull out a Glock  
Never had the chance in this fucked up life  
I pray to god everything alright

Moment for the silence for the people ain't here  
And the people that's not gonna be here next week  
And the people we shall miss  
Love yall, miss yall
