

# Landslide

Ty Herndon

Bout 1 a.m  
Glass of whiskey in my hand  
I'm losing this fight  
With my phone again

I promise I don't need you  
I guess I just needed to see  
If you'd pick up or let it ring

Damn it I gave in  
And here we go again

Here comes the landslide  
Don't ruin the night with the truth  
Can we just lie here and say I love you  
Just kiss me pretend and convince me  
That what we had is what you're missing  
Oh baby I need you to hold me  
Like you're not just lonely

When sorry can't cut it  
Those words ain't enough  
I can't help but want you  
Even though you've given up

Why do I do this  
I know we're gonna do this

Here comes the landslide  
Don't ruin the night with the truth  
Can we just lie here and say I love you  
Just kiss me pretend and convince me  
That what we had is what you're missing  
Oh baby I need you to hold me  
Like you're not just lonely

Don't say a word  
(Don't say a word)  
Baby I know it's gonna hurt  
(I know it's gonna hurt)

Landslide  
Don't ruin the night with the truth  
Can't we just lie here and say I love you

Here comes the landslide  
Don't ruin the night with the truth  
I'm gonna lay here and say I love you  
Just kiss me pretend and convince me  
That what we had is what you're missing  
Oh baby won't you just hold me  
Like you're not just lonely

I can't do this
