

Nothing Left to Break

Ty Herndon

Try to convince myself
It's not as good as I remember
Something as good as us
Ain't supposed to end
I give in when you call
And we get back together
We do that back and forth
And round around and round around again
Here we go again

I wish I gave up easy
I wish I could forget
Turn and walk away just like there's
Nothing left, nothing left,
Could lie and say it's over
Could tell you I don't care
Truth is you know I'm gonna stay
Till there's nothing left,
"Nothing left to break"
"Nothing left to break"

You call me late at night
Scared cause you heard something
It's just the wind blowing the tree
Against the house
Sometimes the very things you think
That you can't live with keep you awake at night
Cause there the things that you can't live without
I can't live without you

I wish I gave up easy
I wish I could forget
Turn and walk away just like there's
Nothing left, nothing left,
Could lie and say it's over
Could tell you I don't care
Truth is you know I'm gonna stay
Till there's nothing left,
"Nothing left to break"
"Nothing left to break"

I break your heart
You break your word
I keep coming back like I love the hurt
We break each others wings
We're good at breaking things
Breaking things

I wish I gave up easy
I wish I could forget
Turn and walk away just like there's
Nothing left, nothing left,
Could lie and say it's over
Could tell you I don't care
Truth is you know I'm gonna stay
Till there's nothing left,
"Nothing left to break"

"Nothing left to break"

"Nothing left to break"

"Nothing left to break"
