

Class War

Ty Segall

I, I want a war
Between the rich and the poor
I wanna fight
And know what I'm fighting for

In a class war, class war, class war, class war
This war, that war, class war, last war

And here we are
In LA
City Hall's falling down
There's no escape
When a class war comes to town

It's a class war, class war, class war, class war
This war, that war, class war, last war

And if I'm told to kill
Anyone at all
There'll be a class war
Right here in America

It's a class war
Class war
Class war
Class war
Class war
Class war
Class war
Class war
Class war
Class war
Class war
Class war
Class war
Class war
Class war
Class war
Class war
Class war
