

Distraction

Ty Segall

At night I listen to the light outside the window
A sound reflection purple gray
An ear upon the glass I remember that I lived there
The place where I fade away

So sing me a distraction
I want to know what happens
We'll take a walk outside
We'll take a walk outside
Oh oh oh, oh oh oh ohhh

So write me a verse that sounds so familiar
A known name with a different face
It's not far if you measure as the bird flies
A sound reflection purple gray

So sing me a distraction
I want to know what happens
We'll take a walk outside
We'll take a walk outside
Oh oh oh, oh oh oh ohhh
