

Ice Plant

Ty Segall

It's a new day
The sun don't know how to say
It wants to go away
So it says, "Hello"
To the oranges
That used to be my driveway
And the ice plants
That live on the hills
I see the yellow hair
Fell into the sea
But I don't care
It said hello to me, and

Let your love rain down on me
Let your love rain down on me
Down on me
Let your love rain down on me

Let your love rain down on me
Let your love rain down on me
Down on me
Let your love rain down on me
