It #1

Ty Segall

It comes from way inside
Where peoples little demons go to run and hide
You know, you know, it shows, it shows, it shows
Maybe I can hide a little longer so nobody knows

You know what to do, it will destroy you
You know you gotta kill it boy
Don't you mess around, it will bring you down
You know you gotta kill it boy

Here it comes, then there it goes
Hopefully well then I'll make some' but I know
The pain I feel, it grows, it grows, it grows

You know what to do, it will destroy you
You know you gotta kill it boy
Don't you mess around, it will bring you down
You know you gotta kill it boy

You know what to do, it will destroy you
You know you gotta kill it boy
Don't you mess around, it will bring you down
You know you gotta kill it boy
