

Stick Around

Ty Segall

And although we have to go, you know you wanna stick around
When I'm gone I may be down, you know I wanna stick around

And it's love, when we play you know we gonna play all day
So come down, let's make a sound, oh yeah, let's stick around

Well, come on, come on down, yeah, stick around
We are here, let's make a sound, you know we're gonna stick around
