You're The Doctor

Ty Segall

In the center of my brain
All you people gonna make me go insane
Yeah you people gonna make me cry
Safe to say I don't love you, it's a lie because

There's a problem in my brain
There's a problem in my brain
There's a problem in my brain
There's a problem in my brain
Oh, you're the doctor

In the center of my heart
All you people gonna make me fall apart
Yeah you people gonna make me cry
Safe to say I don't love you, it's a lie because

There's a problem in my brain
There's a problem in my brain
There's a problem in my brain
There's a problem in my brain
Oh, you're the doctor
