Gravity

tyDi

I'll never escape, bound by this love, this life, and next.
We're stars above.
Don't let me go.
Don't let me go.
Burning fires at the speed of light.
You're my soul, don't let go.
This is all I want, in perfect sanity.
Can't come down from our love, defying gravity.
Don't let me go.
Don't let me go.
Burning fires at the speed of light.
You're my soul, don't let go.
