

So Alone

tyDi

Empty feelings
Caving soon leaves
This room it haunts me
You're not around

Sometimes the poison we drink makes us think of the good times
Like last week when our love was crazy

If I break down
It's a blackout
Who I was, will I know, I don't know anymore
As I break down
It's a freak out
Who are you, will I know, I don't care anymore

I'm so alone
I'm so alone
I'm so alone
I'm so alone

Nothing can save me
I'm scared, I'm fading out
Everything's blurry
Red wine is dripping from my...

Sometimes the poison we drink makes us think of the bad times
Like last week when our love was crazy
If I break down
It's a blackout
Who I was, will I know, I don't know anymore
As I break down
It's a freak out
Who are you, will I know, I don't care anymore

I'm so alone (I'm so alone)
I'm so alone (I'm so alone)
I'm so alone (I'm so alone)
I'm so alone (I'm so alone)
I'm so alone...
Red wine is dripping from my

Sometimes the poison we drink makes us think of the good times and bad times
When our love was crazy

If I break down
It's a blackout
Who I was, will I know, I don't know anymore
As I break down
It's a freak out
Who are you, will I know, I don't care anymore

I'm so alone (I'm so alone)
I'm so alone (I'm so alone)
I'm so alone (I'm so alone)
Red wine is dripping from my
Red wine is dripping from my
