

Take a Chance

tyDi

Watching all the constellations
Form over head
Through the trees full moon rises
And lights my bed
And I'm awake and up on my feet
Got to be near you
I'm running barefoot down the street

You've got me acting crazy
And I wanna dance
Caught in the moment come on
Lets take a chance

I wanna dance
And am i crazy
Am i crazy

Rain is running down the window
Of this cafe
Outside you check your reflection
Then walk away
