Wanna shout it out loud  
Wanna shout it out loud  
Wanna shout it out loud  
Louder louder louder louder hey!

Everything I do is for you, for you  
You're the one I want too, want too  
Girl my love is so true, so true  
Not what I was used to, used to

Girl I'm not same I used to  
Play around, mess around like I used to  
Now I'm seeing it so clear view  
Listen up, listen up, I won't confuse you

Everything is for you girl  
I don't need another girl  
Dedicated to you girl!  
Be my one and only girl  
Rolling in that lambo truck  
Money pile is going up!  
Everyday we growing up  
Beautiful you glowing up!

Everything I do is for you, for you  
You're the one I want too, want too  
Girl my love is so true, so true  
Not what I was used to, used to

So, what's it all about  
I been acting like a clown  
Say it with no doubts  
But I've been learning how  
Maybe you can show me now  
What love is all about  
I'll never let you down  
Got me dancing in the clouds

You deserve much better!  
Gonna write you with that letter!  
You can wear my favorite sweater  
Take you out and spend that cheddar  
Bring you into my world girl  
Kiss, kiss another world  
Call me up or hit my cell  
After dinner gonna get dessert

Everything is not enough  
I can never get too much  
Elevator's going up  
Don't be shy and take the jump  
Rolling in that lambo truck  
Money pile is going up!  
Everyday we growing up  
Beautiful you glowing up!

Everything I do is for you, for you

You're the one I want too, want too  
Girl my love is so true, so true  
Not what I was used to, used to

So, what's it all about  
I been acting like a clown  
Say it with no doubts  
But I've been learning how  
Maybe you can show me now  
What love is all about  
I'll never let you down  
Got me dancing in the clouds

Wanna shout it out loud  
Shout it out loud  
Shout it out loud

Everything I do is for you, for you  
You're the one I want too, want too  
Girl my love is so true, so true  
Not what I was used to, used to

So, what's it all about
