

Let's Play

Ty Dus

(Uh) The whole world too serious now
So I'mma about to make a hit like POW
Just forget about the troubles and drama
And turn it up for ya cousin and ya mama

This the feel good track for the summer
Like a half court shot at the buzzer
Rolling Stone magazine on the cover
Lamborghini every different color

I know you working so hard every single day
But you gotta leave time for a little play
Even when some things try to get to your way
You're gonna be A-OK

When it feels like everything is under
Listen to me, you ain't gotta wonder
Just believe they about to call ya number
You're gonna be A-OK

Yea I got nothing else left to say
Baby you can have it all your way
Got me feeling so good
Let's play, let's play, let's play

(Can't stop me!) I'm starting up a brand new day
Baby you can have it your way
Now we gonna take a trip
Let's play, let's play, let's play

I do it for my family, I do it for the love
Do it for my friends, checking all the above
WWE champion, that's me
Top rope, finisher, hot shot, they tap out

They don't know which level that I be on
Cause I'm reaching for the stars like Elon
Gold chains on my neck 'cause I'm too cold
Outta this world, I'm on Mars with Bruno

Yea I got nothing else left to say
Baby you can have it all your way
Got me feeling so good
Let's play, let's play, let's play

(Can't stop me!) I'm starting up a brand new day
Baby you can have it your way
Now we gonna take a trip
Let's play, let's play, let's play

Ooooo oooo oooo
Let's play!
Ooooo ooo ooo
Today!

Ooooo oooo oooo
Let's play!

Ooooo ooo ooo

Okay!

Got em saying let's play!

Gotta me feeling okay!

In the clouds fly away!

All my time today!

Sing ending

So live it up today

Got it on replay

No matter what they say

It's gonna be okay
