

## You + Me

Ty Dus

All my ladies if you feel it say yeah  
All my fellas put your hands in the air  
All my people worldwide  
Turn it up, turn it up, turn it up, turn it up, ay

Who am I? T to the Y  
Put your hands up if you feeling the vibe  
Who am I? T to the Y  
Really like you, wanna see you by my side

Saw this pretty girl, said "What's your IG?"  
"Add me up baby, Ty Dus, that's my ID"  
I know you've seen me on the front page of YouTube  
Just wanna kick it with you, like kung fu  
Let's chill, we don't even need the Netflix  
Or maybe drive, we can even take a road trip  
We a team, let's get it, no roadblocks  
I wanna build together like Roblox

Who am I? T to the Y  
Put your hands up if you feeling the vibe  
Who am I? T to the Y  
Really like you, wanna see you by my side

Let's get away  
You want a hand, just take mine  
Running around  
You bring the sunshine out of me  
Let's take a trip  
Just sing along one more time  
I gotta say  
Loving the way I'm feeling right now

You plus me, you're my baby

What you think of? Nothing impossible  
You like a top chef's Lunchables  
You never I start rolling  
Then hit the and I'll be your goalie  
I got you like the letter A to Z  
Girl but I like what I see  
My Tesla, twenty-fours on the tire  
All we don't need no driver

All my ladies if you feel it say yeah  
All my fellas put your hands in the air  
All my people worldwide  
Turn it up, turn it up, turn it up, turn it up, ay

Who am I? T to the Y  
Put your hands up if you feeling the vibe  
Who am I? T to the Y  
Really like you, wanna see you by my side

Let's get away  
You want a hand, just take mine  
Running around

You bring the sunshine out of me  
Let's take a trip  
Just sing along one more time  
I gotta say  
Loving the way I'm feeling right now

You plus me, you're my baby  
You make me go crazy  
You plus me, oh do it like that  
Holding me, touching me  
You plus me, you're my baby  
You make me go crazy  
You plus me, let's sing it now  
Gotta be nice to me

Let's take a trip  
Just sing along one more time  
I gotta say  
Loving the way I'm feeling right now
