

# Youngest In The Game

Tydus

I'm the youngest in the game, yea  
Everybody know my name, yea  
I'm dropping fire with the flame, yea  
And I'm never gonna change, yea

(Uh) I'm the youngest in the game, yea  
Everything I say is truth, yea  
And I'm never gonna lose, yea  
Off white on my shoes, yea

Watch me pull up in that foreign car  
Can't drive but I'm going far  
All star better pass the ball  
Diamond dripping waterfall

Living so wild and reckless we loose  
If you gotta problem Imma blame it on my youth  
6 years old and I'm weatherproof  
Your girl looking at me now, cause I'm so smooth

See me rolling in the double R top down  
Pulling up into the stadium with big crowds  
Crank it up and everybody gonna get loud  
Came along way but we always lit now

I'm the youngest in the game, yea  
Everybody know my name, yea  
I'm dropping fire with the flame, yea  
And I'm never gonna change, yea

Now they seeing all the views  
Everything I say is true  
100 million YouTube  
Take a picture with the fans  
When I'm stacking up the bands  
20 thousand in the stands  
LV on the bag

Backseat sipping on my POG juice  
Do what I want I got no rules  
Eating cereal and watching cartoons  
When the bell ring I got no school

Buying all the cookies outta whole foods  
Bust down cost about deuce deuce  
Slam dunking on the hoop hoop  
Can my dogs get a woof woof?

See me rolling in the double R top down  
Pulling up into the stadium with big crowds  
Crank it up and everybody gonna get loud  
Came along way but we always lit now

I'm the youngest in the game, yea  
Everybody know my name, yea  
I'm dropping fire with the flame, yea  
And I'm never gonna change, yea
