

# Cut My Check

Tyga

Drop your hands into your lap and relax

Been around the world seen with the best (with the best)  
My kicks you haven't seen them yet (not yet)  
Where the girls just looking for the sex (the sex)  
Throw your hands from the east to the west (to the west)

Tell them all just cut my check (my check)  
Tell them all just cut my check (my check)  
Tell them all just cut my check (my check)  
Tell them all just cut my check (my check)

Look rappers, I'm tell you what's about to happen  
As I add up, your money is mathematics  
As an animal, Dracula out of his casket  
Who's hungry [?]  
Who matters I'll make them unmatter  
Batter batter I throw money, stripper catch it  
They mad happy  
No meal, I'm Christmas deal

Hear hear hear this that real weird  
I'm going to steer steer this with the e-gear  
Might appear in the shape of a shark fin  
Signal the docks that I'm hot and I'm heartless  
Gorilla bar mitzvahs, ape when the record spins

Tyzilla, welcome to the thriller  
Shimmer on my neck but I bet it ain't glitter  
King of the poppa, popkilla killa  
Middle of the [?] will I get my sizzle  
Hot hot man, God God God, damn  
Girl grab me but I melt through her hands  
Land of LA, Cali where they bang  
I'm just a star that never change
