Fresh off the runway, today gon be a good day  
Her first time in La, she heard bout Secret Sunday  
Party on rove top, convertible drop top  
Want the Axel Foley life, talkin Beverly Hills cop  
2 shots, we sip a lot, one shot, that's all you got  
She just wanna be on the scene, stuntin in parking lots  
First time she feel at home, second time did it wrong  
Third time's a charm, now she ready for it all  
I place my bets high, no time for actin shy  
Start about a life on stage, don't close yo eyes  
Thinkin rodeo drive, sweets at the lama ties  
Oh she fly but it's gon take more and we ain't tired  
Hoping that they gon come, she's saving up her ones  
Saying she love to hustle, champagne for fun  
A New York stripper, said she left her nigga  
La won't tip er, she runnin back to that nigga  
I told er

It neva rains in Southern California  
It neva rains  
It neva rains in Southern California  
It neva rains in Southern California  
(It neva rains in Southern California)  
It neva rains in Southern California

Wake up the flies and she know it's me  
Swear to God that body perfect like them rosaries  
She got me Skyping when I'm overseas  
Swiping when I'm overseas, Chanel with the codeces  
Berkin make er twerk it, I pop it while she workin  
Niggas poppin in bands when she walk out by them curtains  
Make yo rainin honest cause I swear that she deserve it  
Nowhere to nothing, nigga money longer than that suburban  
Love er but she a stripper, magnum wrapped just like a turban  
We just out further here, I'm going deep enough to hurt it  
Yea she a squirter, that pussy homicide  
And my dick can murder, The Lake Suicide  
And I click on purpose, we fuckin Oceanside  
Keep er wetted in them surface and whenever she resurface  
It's tighter than a virgin, like a melon when it's swell up  
Whenever she in Cali no need for the umbrella 'cause

It neva rains in Southern California  
It neva rains, no  
It neva rains in Southern California  
It neva rains in Southern California  
It neva rains here  
It neva rains in Southern California
