One ratchet, one bougie, you can call 'em R&B
One blunt in between two fingers, world peace
Yeah, yeah, yeah, yeah, I'm up there somewhere
Hell yeah, fuck yeah, fresh air, what smell?
Long hair, don't care, yeah, yeah, yeah, yeah
You can get shot there and there and there and there and there
Play it fair, fuck fair, it's unfair, hell yeah
I was 12, rich as hell, welfare farewell
I done got too big, now the world is handheld
I done broke a whole desert down to a sand drill
Yeah, it's on me and what it's gon' be?
It's gon' be money over bitches, not the homies
It's gon' be money over bitches, not the halo
And if it's on me, then we okay and that's a KO
