

# Sip a Lil

Tyga

Cash Money, AP  
Tyga, Wop, argh  
Ooh, BatGang on the track, bitch

Baby, when I sip a lil, I miss you a lil  
Baby, when I sip a lil more, I miss you a lil more (Wop)  
Baby, when I sip a lil, I miss you a lil  
Baby, when I sip a lil more, I miss you a lil more

Baby, when the lights are low and the night is warm  
You like it slow, I used to rush to you  
Baby, when the rain pours down  
Reminds me of touching you

Baby, when I'm out and the pill hit  
I start to feel shit, shit I used to feel when you still here  
Sometimes I roll over like you still there  
I been rolling for a week and I'm still lit  
Got a baby for my body high, baby for my head high  
Got a lil baby for my bedtime  
Got a lil baby come through in the AM for the cereal  
My boutique lil baby got more poochie than Emilio  
No, no, I don't think they feel me though  
Looking in the mirror, I'm a miracle  
You know when I sip a lil, I might send a missile  
Hit you with that tongue emoji, wanna lick that  
I be on a mission, yeah, I know you see the vision, yeah  
Still wanna see me, got me feeling like I need you when

When I sip a lil, I miss you a lil  
Baby, when I sip a lil more, I miss you a lil more (Wop)  
Baby, when I sip a lil, I miss you a lil  
Baby, when I sip a lil more, I miss you a lil more (go, go, go)

Baby, when the lights are low and the night is warm  
You like it slow, I used to rush to you  
Baby, when the rain pours down  
Reminds me of touching you (Wop)

She just wants some closure, my thing out is suicidal  
I bet she hear this song and think of Guwop inside her  
Drop top with my top open, her heart broken, I'm liable  
My ambition as a rider, is all about survival  
Glacier blue McLaren and I drive it like MacGyver  
Got so many Burkin bags, that bitch can't make her mind up  
I'm the owner but I'm coach and play, I just might change the line up  
Too bad he wanna be with Gucci gang, I won't let him sign up  
Bigger, bigger diamonds got 'em lost in the sauce  
Yeah, you crossed the line like the stones in the cross  
I was on the boss, now I'm boss of the boss  
And I just crack a smile 'cause you done, stick a fork

Baby, when I sip a lil, I miss you a lil (Gucci)  
Baby, when I sip a lil more, I miss you a lil more  
Baby, when I sip a lil, I miss you a lil  
Baby, when I sip a lil more, I miss you a lil more

And the vibe don't lie, I hear what you saying  
But the vide don't lie, I'm where you wanna be laying at  
Who you playing with? I'm not a toy thing  
I'm a man, I'm not your boyfriend, I boost off the poison  
Sip a lil, mix a lil, twist a lil, kiss a lil  
We lick a lil, just a lil but this ain't lil, this ain't lil  
I was tryna call you  
All summer, tryna fall through, I hit you like where are you?

When I sip a lil, I miss you a lil (Gucci)  
Baby, when I sip a lil more, I miss you a lil more  
Baby, when I sip a lil, I miss you a lil  
Baby, when I sip a lil more, I miss you a lil more
